WATER PURIFICATION PLANT OBSERVATION VISIT – REPORT

Nehru College of Nursing had an opportunity to visit observation visit to water purification plant at Malampuzha. The 30 students had visited the water purification plant. safe and readily available water is important for public health, whether it is used for drinking, domestic use, food production and recreational purposes.

Water treatment is important to health because the availability of fresh water is limited in the earth and demand is high. it is important to protect the health. The harmful chemicals and metals and other contaminants present in the water are dangerous for health of human and other organisms living on this plant.

There are types of water purification plant working at Malampuzha which consists of 12 MCD, 9 MCD and 45 MCD. there are 5 steps in the purification of water which includes aeration coagulation, sedimentation, filtration and disinfection. In aeration the water is mixed with air. In the next step, coagulation, the coagulant {alam, lime} is added to the water for regulating its turbidity and PH. In sedimentation, the water and sediments are separated. filtration is done by filter bed and the last step disinfection is done by adding chlorine.

In 45MCD, plant slow sand filtration method is used. aeration in this plant is done by cascade method. When there is a change in PH or turbidity, the coagulations are added in the ratio of 4:2. Circle type sedimentation is done in this plant. 12 filter beds, are used which is made up of sand. In disinfection, adequate

DISTRICT TUBERCULOSIS CENTRE (DTC) UNIT VISIT

The key level for the management of public health services is the district level. The District Tuberculosis Centre (DTC) is the nodal point for tuberculosis (TB) prevention and care activities in the district. Functions of the DTC includes, the central program management unit of the district responsible for all activities related to National TB Elimination Programme (NTEP) implementation such as: advocacy, active case finding, diagnosis, treatment (both for drug-susceptible and drug-resistant TB patients) and follow up, managing comorbidities, service delivery, maintaining diagnostic and treatment infrastructure, Setting up Drug-resistant TB (DR-TB) centres, Ensuring community engagement and TB forums, multi-sectorial involvement for drug management, and supervision and monitoring, Financial management, drugs, logistics and supply chain management.

On 03.08.2023 Nehru college of Nursing students visited Tuberculosis Centre Palakkad. This tuberculosis centre was separated from other areas of hospital. we reached this around 10.00 am and we were 30 members participated on the first day, the visited for the balance 30 members planned on the next day.

REPORT ON: HEALTH CHECK UP AT POLYGARDEN

It has been observed that people of the working-age group (30-60 yrs) are at a high risk of lifestyle diseases. Unhealthy lifestyle changes, hereditary health diseases, and lack of sleep can cause many health problems ranging from minor to severe concerns. Getting a full-body check-up that includes tests for diabetes, cholesterol, Blood Pressure, heart disease can save your extra bucks in the long run.

On 11/08/2023 as a part of health checkup first 30 members visited PolygardenLakkidi. Students reached there around 10.00am. They welcomed us and we maintained a good rapport with them.

In beginning polygarden was started with 4 members by Fr. Paul. Now there is 120 members in polygarden. Only male members are there. Polygarden is ecofriendly and good atmosphere. Staffs in Polygarden are supportive and caring.

At 11.30pm we started health checkup including vital signs, height, weight, blood sugar; they are very cooperative with students around 1:30 we had our lunch and left from there and we reached college at 3.00pm .

REPORT ON VISIT TO SHARANALAYAM ON 03/11/2023

VISIT TO OLD AGE HOME: As a part of our BSc Nursing curriculum our college planned and organized visit to old age home at sharanalayam.

Old age home is a multi residence housing facility intended for senior citizens. As a part of III year B.Sc. Nursing, Mental health nursing requirement 58 students of **Nehru College of Nursing** were visited sharanalayam on 03.11.2023 from 10.00 am to 1.00 pm. Sharanalayam is established in 2008 which is run by nun sisters. The students of the college interacted with the elderly followed by an entertainment programme with music, singing songs and dance. The inmates were very happy and blessed everyone it was a very happy moment with full of satisfaction that our students could bring some rays of happiness among elderly. This observational visit was very much useful for the students.

REPORT ON: OLDAGE HOME VISIT

Issac Emmanuel Old age Home

The 4th year BSC nursing students under the guidance of Community Health Nursing Department conducted an old age home visit to Issac Emmanuel Old age Home on 04/10/2023. We reached there at 10:00 AM. There were 13 inmates. We met them and spent time with them. A nutritional programme was conducted on the old age home. We prepared food items such as rice, chicken curry, cabbage thoran, chatni, pappad and pickle. Mr Issac sir talked about the sharing and caring to the vulnerable people and gave us motivation for our future. We donated a token of love for them. We reached back to college at 03:00 PM.

COMMUNITY EXTENTION ACTIVITIES

VISIT TO MILMA DAIRY PLANT PALAKKAD

Field Observation Visit is one of the most realistic methods of teaching, which gives first-hand experience to the students. MILMA is one among the leading products of milk in Kerala. The units under Milma committed to ensure Dairy Farmers' prosperity, wellbeing and consumers' satisfaction. The objective of the Milma is to carry out activities conducive to the socio-economic development of the dairy farmers by effectively organizing milk procurement, processing and marketing of commodities as per the directions of the Kerala Co-operative Milk Marketing Federation Ltd.

As a part of community health Nursing requirement Nehru College of Nursing organized an observation visit for the 4th year BSc Nursing students to Milma dairy plant at Kalepully Palakkad on June 24th 2022. Mrs Rose Jose Asst Prof NCN Mrs Shincy K Lecturer NCN accompanied the students . The visit was mainly aiming to aware students regarding the functions & operation system of dairy plant & to see the pasteurisation of milk & the packing system. The visit was a real visual experience for the students & gained relevant knowledge about Dairy Plant

Respected Madam,

APPRECIATION LETTER

We are very much thankful to you for accepting our request and granting permission for visiting to the slaughter unit of KVASU, Mannuthy on 04 and 05.08.2022. The class you have delivered was very interesting, informative and useful to the students. In totality, the observational visit was very effective.

We are looking forward for future association also.

Thanking you.

Yours sincerely,

Principal

VISIT TO MEAT TECHNOLOGY UNIT, MANNUTHY

(Centre of Excellence in Meat Science and Technology) and
Human Resource Development Centre in Meat Science & Technology – (HRDC-MST)

“Access to sufficient amounts of safe and nutritious food is key to sustaining life and promoting good health. Reviewing the available statistics, The CDC estimates that each year 48 million people get sick from a foodborne illness, 128,000 are hospitalized, and 3,000 die from food poisoning. Meat has exerted a crucial role in human evolution and is an important component of a healthy and well balanced diet due to its nutritional richness. Unprocessed meat will spoil or rot within hours or days as a result of infection with, and decomposition by, bacteria and fungi. Failure in maintaining meat hygiene may pose serious public health hazards and therefore evaluation of meat for meat borne pathogens which can cause diseases of public health importance is very important”

As a part of community health nursing requirement Nehru college of Nursing organized a visit to the MEAT TECHNOLOGY UNIT, MANNUTHY for the 2nd year BSc Nursing students on 4th Aug 2022. Considering the importance of meat in human nutrition, the Kerala Agricultural University had conceived the idea of developing a modern Meat Plant capable of undertaking the responsibilities of teaching, research and extension, almost two decades ago. The main objective of this visit was to make the students aware about the importance of meat hygiene, infrastructure facilities, regular production, processing and marketing of meat and meat products. In the visit they had an excellent theory session which explained about production, processing and marketing of meat and after they had a visit to slaughtering session of the unit. This was really a great deal of Illuminating experience for the students

COMMUNITY EXTENSION ACTIVITIES

INDUSTRIAL VISIT TO MALABAR CEMENT FACTORY

Industrial visits provide the students with an opportunity to learn practically through interaction, working methods, employment practices & health hazards to the workers. In many countries more than half of workers are employed in the informal sector with no social protection for seeking health care and lack of regulatory enforcement of occupational health and safety standards. Occupational health services to advise employers on improving working conditions and monitoring the health of workers. Work-related health problems result in an economic loss of 4–6% of GDP for most countries.

As a part of community health nursing requirement the 4th year students of Nehru college of Nursing had got an opportunity to visit Malabar cement factory Walayar on 28th July 2022. Malabar Cements was incorporated in April 1978. The Limestone mine is located at Pandarathu hills inside the Walayar reserve forest about 9 km from the Walayar plant. The unit at Walayar, with a production capacity of 6.6 lakh MT per annum, is the largest. The aim of this visit was to assess the health risks at the workplace, chances for occupational disease, protective measures used, health insurance schemes available & psychological stress faced to the workers. This was a one day program & after the visit the students gained information regarding how to secure the health of workers, safety and welfare of employees and other people at work; the ways to protect the public from the health and safety risks of business activities & to eliminate workplace risks at the source. The visit was really comprehensive & the students became scholars in the field of occupational health which will offer them a greater skill & practice in their future professional life

Sub: RUHSA-IHD Training for B.Sc Nursing (60) students from 26.06.2023 to 30.06.2023

Dear Sir/Madam,

Thank you for the mail.

We will organize the 'IHD Training for your students from 26.06.2023 to 30.06.2023.

Tariff and accommodation charges will be sent to you. We also follow strict COVID-19 protocol as mentioned below.

Mandatory COVID-19 requirements for any incoming trainees, faculty and visitors for stay in RUHSA Campus:

1. Completed 2 doses of COVID-19 vaccination two weeks prior arrival to RUHSA.
2. Person with following conditions are advised against coming for training:
 1. Person's over 60 years of age.
 2. Children under 14 years of age.
 3. Persons with any chronic disease.
3. Person with any symptoms of COVID will need to be tested. If positive, recommended management protocol will be followed. All cost related to any illness will be borne by the trainee.
4. Anyone coming from outside our State should have negative RTPCR 72 hours prior to travel (currently recommended and to may change).

Thanking you,

Dr. Shantidani Minz
Sr.Professor & Head
RUHSA

This is Your Confirmation mail

Kindly fill the pre-workshop form and accommodation tariff send it back to us within one month.
