A COMPREHENSIVE STRESS MANAGEMENT

Introduction

Stress is a fact of life, wherever we are and whatever we are doing. We cannot avoid stress, but we can learn to manage it, so it doesn't manage us.

Changes in our lives such as going to college, getting married, changing jobs, or illness-are frequent sources of stress. Keep in mind that changes that cause stress can also benefit you. Moving away from home to attend college, for example, creates personal-development opportunities new challenges, friends, and living arrangements. That is why it's important to know yourself and carefully consider the causes of stress. Learning to do this takes time, and although you cannot avoid stress, the good news is that you can minimize the harmful effects of stress, such as depression or hypertension. The key is to develop an awareness of how you interpret, and react to, circumstances. This awareness will help you develop coping techniques for managing stress.

Stress is the body's response to changes in the life. Because life involves constant change-ranging from every day, routine changes like commuting from home to work to adapting to major life changes like marriage, divorce, or death of a loved one there is no avoiding stress. Stress can come from many sources, which are known as stressors. Some stress relief techniques can work in just a few minutes to calm the body's stress response. These techniques offer a "quick fix" that helps you feel calmer now, and this can help in several ways. Provision of affordable quality mental health care to all has emerged as a major concern for health care system in India. Nurses play an important role in the hospital as well as community in managing stress of patients, family and colleagues. They need to be prepared for managing stress in both hospitals and community by the way of undergoing specialized course in Stress Management.

Stress management is a major challenge nowadays and in order to overcome this challenge student nurses are trained in Stress Management. It is essential to meet such needs effectively.

Nowadays every institution has got stress management policy The purpose of this policy is to define work related stress and identify a corporate approach to the management of stress within the workplace. The policy provides a framework to assist managers and employees to deal with the issues that arise from work related stress and to help employees deal with it and maintain their attendance.

G.P.S.
PRINCIPAL
P K DAS COLLEGE OF NURSING
PANAYUR (P.O), VANIAMKULAM
OTTAPALAM, PALAKKAD DT
KERALA - 679522

The various stress management tools outlined are- yoga, meditation, controlled breathing, visualization, guided imagery - are used by millions throughout the world as they have been for thousands of years. Some have their origins in the Middle East or Asia, and some are associated with various religions, even though they are now commonly practiced by people of all faiths.

Basic Certification Course in Stress Management is designed to develop an ability in student nurses to manage stress in patients, family and an own. The outcome of the Programme will be having more Nursing students to opt and prepare for providing stress management therapies at institutional and community levels.

VISION

The vision of the course is to prepare excellent health care providers and leaders who can manage stress of the patients as well as self.

MISSION

- Learn the significant differences that helping professionals experience as part of their everyday exposure to highly stressful and often traumatic incidents and how their approach to stress reduction requires a unique and tailored approach.
- Learn the basic physiological responses of the human body to various environmental and emotional stresses. Participants will have the ability to differentiate between normal, healthy stress, environmental stressors and emotional stressors both endogenous and reactive. Understand the autonomic responses to various stressors and cognitive reactions that reinforce the occurrence of physical reaction without the benefit of thought processing.
- Learn and practice various, effective, traditional breathing and progressive relaxation methods from the 3 minutes to 20-minute models

PHILOSOPHY

- Nehru College of Nursing believes that registered Nursing students need to be trained for managing stress in order to work enthusiastically and provide competent care to the patients.

G. S. S.
PRINCIPAL
P K DAS COLLEGE OF NURSING

PURPOSE

The purpose of the course is to:

1. To identify the causes of stress
2. Manage the stressful situations.
3. Convey an understanding of the concepts of stress, perception, strain, long-term outcomes, and coping
4. Identify and discuss the potential negative health outcomes of chronic or unaddressed stress.
5. Conduct research in areas of stress management.

COURSE DESCRIPTION

The Course is designed to prepare BSc Nursing students with specialized knowledge, skill, and attitude in managing stress in patients, families and communities at all the three levels of care.

ADMISSION TERMS AND CONDITIONS

The student seeking admission to this course should:

1. Be a registered nursing student under KUHS or equivalent.
2. Students from other institution can also participate subject to eligibility criteria.
3. Be physically and mentally fit.
4. No. of seats 60.

ORGANIZATION OF THE COURSE

A. Duration: 6 months

B. Distribution of the course:

1. Teaching theory :30hrs
2. Examination and evaluation hours :20hrs

VALUE ADDED COURSE
A COMPREHENSIVE STRESS MANAGEMENT

Academic year: 2022-2023
Year of study: I. year Bsc(N)
COURSE CODE: SM2223

Marks: 10 marks
Duration: 30 min

Encircle the correct answers

1: Which of the following is not a common physical symptom of stress?

A) Headaches B) Muscle relaxation C) Increased heart rate

2: What is the primary goal of stress management?

A) Eliminating all stressors from life B) Reducing or effectively coping with stress C) Avoiding all responsibilities

3: Which stress management technique involves focusing on the present moment and accepting it without judgment?

A) Progressive muscle relaxation B) Mindfulness meditation C) Aerobic exercise

Answer: B) Mindfulness meditation

4: What is one of the key benefits of regular physical activity in stress management?

A) Increased stress levels B) Improved sleep quality C) Reduced social interactions

5: Which coping strategy involves seeking social support and talking to friends or family about stress?

A) Isolation B) Social withdrawal C) Seeking emotional support

6: Chronic stress can contribute to the development of:

A) Strong immune system B) Physical fitness C) Health problems such as hypertension and depression

7: What is the term for the stress experienced when adapting to significant life changes, whether positive or negative?

A) Routine stress B) Eustress C) Post-traumatic stress

8: Which stress management technique involves identifying and challenging irrational or negative thoughts?

is A) Biofeedback B) Cognitive-behavioral therapy (CBT) C) Passive relaxation

9: A well-balanced diet with adequate nutrients important for stress management because it:

A) Increases stress levels B) Reduces stress-related weight gain C) Has no impact on stress

10: What is the role of time management in stress reduction?

A) It increases stress by creating strict schedules B) It helps prioritize tasks and reduce feelings of overwhelm C) It has no impact on stress levels

INTRODUCTION:

Many of us believe that as we age, it is inevitable that our body will not work as well as it did ten or twenty years ago. There is some truth in this. But most experts agree that you can do something to counter the usual effects of ageing, and that something is yoga.

Yoga is increasingly gaining mainstream international acceptance as the exercise of first choice to decelerate the ageing process, both physical and psychological. It has been demonstrated by scientific research that yoga can help to ward off mid-life health problems, including arthritis, osteoporosis and low back pain.

The yoga asanas also keep the jelly donut-like discs of the spine supple and healthy. Yoga will help you become a bit stronger and more flexible, have more energy, lose weight, reduce stress, anxiety and high blood pressure, improve concentration and memory, and feel more optimistic.

VISION

The vision of the course is to prepare excellent health care providers who can have adequate knowledge regarding yoga and practice in day today life.

MISSION

- The mission of basics of yoga and techniques for safe practice helps student to lead a healthy body mind and spirit .
- To ensure that each patient will be educated yoga techniques for speedy recovery .
- To ensure good body mechanics while patient care.

COURSE CONTENT

Introduction

A person who is offered a quality education is able to serve the region, the state and the nation through resourceful educational programmes. A quality based education consequently helps in upgrading the individual's growth which in turn endorses the growth of the nation. It offers Quality Education to create a personal paradigm, devoted to master the life skills required for success.

All human beings, need to understand harmony in themselves, harmony with others and harmony with rest of the nature. There is an interconnectedness, self regulation and harmony at all levels of existence and this needs to be identified by each individual. Human beings governed mainly by their pre-conditionings and sensory experiences and are generally very hesitant to analyze them. However, once a break through is achieved, the subsequent journey is very smooth and pleasant.

Values are our guidelines for our success - our paradigm about what is acceptable. Human behavior depends on the characters defining the identity, choosing the values and establishing the beliefs. Ethics is an activity which concerns with the investigation of moral values in moral issues.

"Human value and professional ethics" enlighten the students with the fact that right understanding about oneself and rest of the existence and living in accordance with this understanding is essential for sustained human happiness and propriety.

- Students will be able to describe effective communication Students will be able to describe communication skills Students will be able to describe leadership
- Students will be able to describe effective leadership

INTRODUCTION

Communication refers to the exchange of thoughts and ideas with the intention of conveying information. Communication is a two way sheet that includes vocalization as well as gesticulation. The purpose of communication convey one's beliefs, ideas, thoughts or needs with clarity so as to reach a consensus or a mutually acceptable solution. Good communication skills are a prerequisite for professionals in all walks of life. Using sign language and the sense of touch to express and feel are also important modes of communication. Ultimately, communication should be effective. As long as there is clarity in communication, the goal of communication will be accomplished, communication skills are required for maintaining relationships also. When with friends and relatives, good communication skills ser needed to weld contain miss communication and fights

Leadership is one of these characteristics of a successful man or woman that is never inherited but trained and imbibed it. The term leadership Its self can't be defined and it depends on person to person's perception of life. A leader is simply not someone who will please everyone on his way. A leader is someone who has the courage and intent of mind to take tough decisions even if it brings harm to his followers but is in the direction of fulfilling the goals. leadership is a special quality that can't be found in every person. The leadership skills make a person special than others. To be a good leader a person needs to have some leadership qualities. It is a quality that is got by birth

EXPERIENCE SUMMARY

- **Senior Software QA Analyst** with **13 years** of experience in Software Analysis, Design, and Software Testing (Manual and Automation) of Windows and Web based Applications.
- More than **4 years** of experience in **working with Selenium Web Driver using TestNG java framework.**
- Experience on developing a framework using a design pattern - **Page Object Model**
- Worked on IE, Firefox and Chrome Driver
- Proficient in managing & executing **Functional, Regression, UAT Testing**
- Good Knowledge in **SQL queries & Web Services Testing (SOAP UI)**
- Expertise in **leading and managing** multiple teams of **Automation & Manual testers** from different geographical locations simultaneously.
- Prepared Various documents like Test case document, Requirement Traceability Matrix, Status Report, Defect Report, Capacity Planning
- Expertise in **Agile and V-Model** test methodologies.
- Worked with Leadership, Clients, Development, Quality Assurance and Technical Operations teams and ensured smooth and well-coordinated testing process.

TECHNICAL EXPERTISE

Automation Tools:	Selenium (TestNG) , Coded UI (NUnit)
Test Management Tools:	Rally (Agile Central), JIRA, ALM
Database:	SQL2008, MySQL
Other Tools:	Visual Studio 2017, SOAP UI, MS Word, MS Excel
Platforms:	.NET, Java
Domain Expertise	E-Commerce, Banking, Auditing and Retail & Manufacturing

IMPLICATION OF ARTIFICIAL INTELLIGENCE IN NURSING

SYLLABUS

Mission

To empower nursing professionals with the knowledge and skills to effectively integrate artificial intelligence (AI) into their practice, enhancing patient care, improving healthcare outcomes, and fostering innovation in nursing through a comprehensive understanding of AI technologies, tools, and ethical considerations.

Vision

To lead the transformation of nursing practice by equipping nurses with cutting-edge AI competencies, promoting a culture of continuous learning and adaptation, and ensuring that nursing professionals are at the forefront of technological advancements in healthcare, ultimately contributing to a smarter, more efficient, and patient-centred healthcare system.

Objectives

Knowledge Acquisition

- Equip nursing professionals with a foundational understanding of AI concepts and technologies relevant to healthcare and nursing.
- Familiarize nurses with the various applications of AI in diagnostics, patient monitoring, clinical decision support, and personalized care.

Practical Skills Development

- Provide hands-on experience with AI tools and applications used in nursing practice.
- Develop competencies in using AI for patient management, including the interpretation of data from AI-powered devices and systems.

Ethical and Legal Awareness

- Foster an understanding of the ethical implications and legal considerations surrounding the use of AI in nursing.
- Promote the adoption of best practices for maintaining patient privacy, security, and informed consent in the context of AI.

Integration and Implementation

- Guide nursing professionals on the steps to effectively integrate AI technologies into their daily practice.
- Encourage collaboration between nurses and AI developers to optimize the implementation and functionality of AI tools in clinical settings.

PRINCIPAL
PK DAS COLLEGE OF NURSING
PANAYUR (P.O), VANIYAMKULAM
OTTAPALAM, PALAKKAD DT
KERALA - 679522

Continuous Learning and Adaptation

- Encourage a culture of continuous learning and professional development to keep pace with the rapid advancements in AI technology.
- Provide resources and strategies for ongoing education and adaptation to new AI applications and innovations in nursing.

Innovation and Leadership

- Inspire nursing professionals to become leaders and advocates for the use of AI in healthcare.
- Promote innovative thinking and problem-solving skills to leverage AI for improving patient care and healthcare delivery.

Evaluation and Improvement

- Establish mechanisms for assessing the impact of AI on nursing practice and patient outcomes.
- Encourage feedback and continuous improvement in the use and integration of AI technologies within the nursing field.

By achieving these objectives, the syllabus aims to prepare nursing professionals to confidently navigate the evolving landscape of healthcare technology, ensuring they can utilize AI to enhance their practice and deliver exceptional patient care.

Application of Artificial Intelligence in Nursing (15 Hours)

Admission terms and conditions

The students seeking admission to this course should:

1. Be a registered nursing student with KUHS.
2. Successful completion of minimum of two years prescribed BSc Nursing curriculum.
3. Be physically and Mentally fit
4. No. of seats-90
5. Placement : IV year

Organization of the course

b. Distribution of the course:

Theory hours: 15 hours

Medium of instruction: Medium of instruction shall be in English

Conditions for admission to examination

Has attended not less than 75% of the theoretical instruction hours during the year

Course Evaluation: Written Examination will be conducted by the Nehru College of Nursing.

Standard of passing: In order to pass a candidate should obtain 50% of marks in written exam.

Certification: A certificate awarded upon successful completion of the programme

SYLLABUS

MODULE 1: INTRODUCTION TO AI IN HEALTH CARE (3 HOURS)

1. Lecture 1: Fundamentals of AI

(1 Hour)

- Definition and history of AI
- Types of AI: Narrow AI vs. General AI
- Key concepts: Machine learning, deep learning, natural language processing

2. Lecture 2: AI in Health care

(1 Hour)

- Overview of AI applications in health care
- Benefits and challenges of AI in health care
- Case studies of AI in health care (e.g., diagnostic tools, patient monitoring)

3. Lecture 3: AI in Nursing

(1 Hour)

- Specific applications of AI in nursing
- Role of AI in enhancing nursing practice and patient care
- Ethical and legal considerations

G. S. S.
PRINCIPAL
P K DAS COLLEGE OF NURSING
PANAYUR (P.O), VANIAMKULAM
OTTAPALAM, PALAKKAD DT
KERALA - 679522

MODULE 2: AI TOOLS AND TECHNOLOGIES IN NURSING (4 HOURS)

- 1. Lecture 4: AI-Powered Diagnostic Tools** (1 Hour)
 - AI in medical imaging (e.g., radiology, pathology)
 - AI for predicting patient outcomes

- 2. Lecture 5: AI in Patient Monitoring and Care** (1 Hour)
 - Wearable health devices and remote monitoring
 - AI for patient management (e.g., electronic health records, predictive analytics)

- 3. Lecture 6: AI in Clinical Decision Support** (1 Hour)
 - Decision support systems for nurses
 - AI for personalized patient care

- 4. Hands-On Session: Introduction to AI Tools** (1 Hour)
 - Demonstration of AI tools used in nursing
 - Basic training on using AI-powered applications

VALUE ADDED COURSE
IMPLICATIONS OF ARTIFICIAL INTELLIGENCE IN NURSING

Academic year : 2022-2023
Year of study : IV year BSc(N)

COURSE CODE : AI2223

1. What is one potential benefit of AI in nursing?
 - a) Decreased patient interaction
 - b) Increased workload for nurses
 - c) Enhanced diagnostic accuracy
 - d) Reduced use of medical records
2. How can AI assist in the management of chronic diseases in nursing?
 - a) By providing inaccurate patient data
 - b) By reducing the need for patient monitoring
 - c) By offering predictive analytics for patient care
 - d) By decreasing the availability of treatment options
3. Which area of nursing could be significantly improved through AI-driven predictive analytics?
 - a) Surgical procedures
 - b) Patient discharge processes
 - c) Patient dietary preferences
 - d) Staff vacation scheduling
4. AI in nursing can help reduce errors in medication administration through
 - a) Randomized prescription methods
 - b) Automated dispensing systems
 - c) Manual checking by nurses
 - d) Reducing the variety of available medications
5. One ethical concern of using AI in nursing is
 - a) Increased costs of healthcare
 - b) Dependence on traditional nursing skills
 - c) Patient data privacy and security
 - d) Reduced nurse-patient ratios
6. AI can enhance the nursing workflow by
 - a) Increasing paperwork

OTTAPALAM, PALAKKAD DT
KERALA - 679522

- b) Predicting patient admissions
 - c) Limiting nurse-patient communication
 - d) Extending hospital stays
7. Which AI application can help in early detection of patient deterioration?
- a) Virtual reality training for nurses
 - b) AI-powered monitoring systems
 - c) Automated appointment scheduling
 - d) Electronic health records without AI integration
8. The integration of AI in nursing education can primarily help with:
- a) Reducing the need for clinical practice
 - b) Enhancing interactive learning experiences
 - c) Decreasing the diversity of learning materials
 - d) Increasing the cost of education
9. AI can support nurses in making clinical decisions by
- a) Replacing nurse judgement entirely
 - b) Providing evidence-based recommendations
 - c) Limiting access to medical research
 - d) Encouraging non-compliance with protocols
10. In what way can AI reduce the administrative burden on nurses?
- a) By increasing manual data entry tasks
 - b) By automating routine documentation
 - c) By reducing the need for patient care
 - d) By eliminating electronic health records
