PULSE POLIO IMMUNIZATION

With the global initiative of eradication of polio in 1988 following World Health Assembly resolution in 1988, Pulse Polio Immunization programme was launched in India in 1995. Children in the age group of 0-5 years administered polio drops during National and Sub-national immunization rounds (in high risk areas) every year. The pulse polio immunisation drive to cover almost 25 lakh children in the state. Pulse Polio will be administered to 2.11 lakh children below five years of age in the Palakkad district on Sunday. Pulse Polio administration would be under strict COVID-19 restrictions.

On 29/1/2021 pulse polio Immunization training programme was conducted in Nehru College Of Nursing. Health team of Vaniamkulam PHC gave training programme to students regarding pulse polio .The trainers are Mrs Sabiya LHI, PHC Vaniamkulam, Mrs Smitha JHI, PHC Vaniamkulam. The participants are NSS volunteers of Nehru College of Nursing .

Pulse polio programme had been conducted by Government of India on 31-01-2021, as part of that in association with Vaniamkulam Primary Health Center, 47 NSS volunteers of Nehru College of Nursing participated in that programme. The students have assigned duties in different polio booths and they administered polio drops for the children who came to the polio booth. The drive will be held between 8am and 5pm. Trained vaccinators will be deployed in all vaccination booth on that day.

Panchayat President Mr. Gangadharan inaugurated the polio administration drive at the Primary Health Center, Vaniamkulam . Medical Officer Dr Hari Das , Health Inspector Mr Berlin Britto, LHI Mrs Sabiya presided the programme. .Ms. Indhu (ward 4) Member and Mr. Pradeep, Health and Standing Committee Chairman of Vaniamkulam Panchayath inaugurated the programme . The NSS volunteers of Nehru College of Nursing actively participated in this programme .

As many as 25 booths was set up for the vaccine administration. Each polio booth will be manned by two students and the health workers of Vaniamkulam panchayath. 50 health workers and 8 supervisors have been employed for the polio drive

The 15 NSS volunteers of Nehru College of Nursing accompanied with the PHC health team for follow up visit at Vaniamkulam Panchayath. Those children who fail to take polio vaccine from the booths on Sunday will be given immunization on Monday and Tuesday. The health staff of Vaniamkulam PHC and the students of Nehru College of Nursing will reach the homes to administer the vaccine for them.

If there is a Covid-positive person in the house, then immunization will be given to the child in that house only after 14 days of the child testing negative. For children below five years of age testing Covid-19 positive, immunization will be given only after four weeks of the child testing negative.

**REPORT ON HEALTH AWARENESS PROGRAMME ON DRUG
ADDICTION**

Drug addiction has become a great threat for the people of India. A large number of people especially the young generation are addicted to drugs. Mainly the young boys and girls are the victims of drug addiction. Nowadays drug addicts are found everywhere in the streets, in the parks, and even in the educational institutions. The number of drug addicts is increasing day by day. It is known that most of them are get addicted to drugs at their teenage. When they realize the consequences of drug addiction, it is too late. They want to shirk off the habit, but they cannot.

The final consequence of drug is very devastating. It causes death by severe affliction and suffering. The parents, the government, and the conscious citizens should come forward to take initiatives with a view to putting an end to this problem.

On behalf of that the faculties of Nehru College of Nursing conducted awareness programme on **Drug Addiction (SAY NO TO DRUGS)** at Providence College Erumapetty in collaboration with Lions Club 318-D Erumapetty on 4-2-2021. It was well appreciated by the Lions Club Members and college students. It is an another feather in our cap TEAM NCN.....

PUBLIC AWARENESS PROGRAMME

The Students of NEHRU COLLEGE OF NURSING are very much responsible for creating awareness in public. They always take initiative to make the public aware regarding the up-to-date information in the health field. The 6th batch students had organised a health awareness programme at their residential area on 4th January 2021. The aim of this programme was to create awareness among the public regarding the current health issues. The topics discussed were

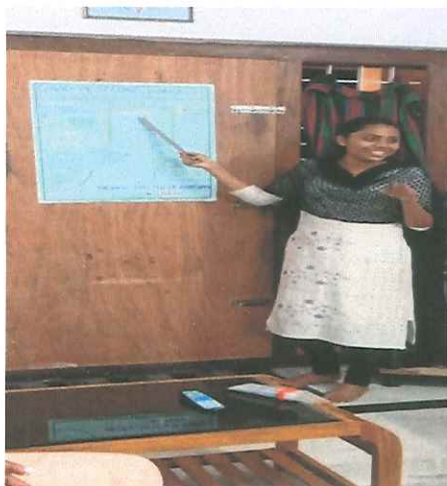

Ms .Jesni : COVID 19 – SECOND WAVE

Ms. Angel Thomas : VACCINE AGAINST CORONA DISEASE

The sessions were very much effective & interactive. They have got excellent feedback from the audients. This will be really helpful for the public to for taking necessary precautions & actions in the current health issues

World Cancer Day

World Cancer Day, organized by the Union for International Cancer Control (UICC) and celebrated each year on 4 February, is an opportunity to rally the international community to end the injustice of preventable suffering from cancer.

The theme for World Cancer Day 2021 is 'I Am and I Will.' This year is a reminder of the enduring power of cooperation and collective action. It is observed to raise awareness and reduce the stigma surrounding the disease that is the second leading cause of death globally.

Third year Bsc nursing students from Nehru College Of Nursing, Vaniyamkulam conducted **WORLD CANCER DAY PROGRAMME** on 4/2/2021 through Google platform. The objectives of the program were to create awareness to the parents regarding cancer prevention.. The programme was coordinated by Mr. Shahul Hameed, Assistant Professor and Mrs. Sreelekha R , Lecturer, Department of Medical Surgical Nursing Nehru College of Nursing, Vaniyamkulam, Student representatives Ms. Roniya and Ms. Aparna AS delivered a session on "Prevention of Cancer " among people.

The session was concluded by the open discussion facilitated by students representatives from IIIrd year BSc Nursing . Parents identified the program as effective and beneficial .

REPORT ON VIDEO SESSION –AWARENESS CONTENT

INTRODUCTION

A warm welcome to one and all. As we all know World AIDS Day is designated on December 1st every year since 1988. It is an international day dedicating to nursing awareness of the AIDS pandemic caused by the spread of HIV infection and mourning to those who have died of the disease .

The final year Bsc Nursing Students of Nehru College of Nursing are here to create an awareness regarding the HIV/AIDS

Theme for the 2020 observance is” **Ending the HIV Epidemic , Resilience and Impact”**

AIDS

- It is a fatal illness caused by retrovirus . It breaks down the body immune system leaving to the patient vulnerable to the host of life threatening opportunistic infection neurogenic disorders or unusual malignancies .
- The most advanced stage of HIV infection is AIDS which can take from 2-15 years to develop depending on the individual .

Epidemiology

- It occurs in all ages and ethnic groups
- All areas of the country are affected
- AIDS is now the second leading cause of death for all men aged 25-44 years

Transmission of HIV infection

- Sexual contact 88%
- Mother to childhood 15-45%
- Breast feeding
- Occupational exposure

HIV Agent

- RNA virus which replicate in dividing T4 lymphocytes and unique ability to destroy T4 helper cells .
- Blood transfusion and other routes
- HIV isn't passed through: mosquitoes ,kissing ,swimming ,toilet seats ,holding hands , coughing .

Source

Virus is found in greate concentration in blood ,CSF and semen . Lower concentration has been found in tears ,saliva ,breast milk ,urine ,cervical and vaginal secretions .however only blood and semen are known to transmit the virus

PRINCIPAL
PK DAS COLLEGE OF NURSING
PANAYUR (P.O), VANIYAMKULAM
OTTAPALAM, PALAKKAD DT
KERALA - 679522

Transmission of HIV infection

Sexual contact

- Male to Male ,
- Male to female or viceversa
- Female to female

Blood exposure

- Injection ,drug use /needle sharing
- Transfusion of blood products

Perinatal

- Mother to child hood
- Breast feeding

Occupational transmission

- Health care workers
- Hospital staffs
- Laboratory workers

Other routes : Organ transplantation ,artificial insemination ,needle prick

Symptoms of HIV infection

- It is depending on the stage of infection though people living with HIV tend to be most infectious in the first three months .
- Many are unaware of their status until their later stages

First few weeks of initial infection individual may experience no symptoms or an influenza like illness including :sore throat ,head ache ,rash ..as the infection progressively weakens the immune system the individual can develop other signs and symptoms such as

- Unexplained weight loss
- Swollen lymph nodes
- Persistent diarrhea more than one month
- Persistent cough more than one month

Mother to child transmission

It is the absence of any interaction during pregnancy rate of HIV transmission from mother to child can be between 15-45%

Common manifestation of AIDS

- Lung infection
- Gastrointestinal infection –candidiasis of mouth and oesophagous
- Skin infection –Kaposiss sarcoma
- Central nervous system infection –dementia ,meningitis

**PRINCIPAL
P K DAS COLLEGE OF NURSING
PANAYUR (P.O), VANIYAMKULAM
OTTAPALAM, PALAKKAD DT
KERALA - 679522**

Investigation

- Detecting the presence or absence of antibodies to HIV in the blood
- Antibodies are produced by an individual's immune system to fight off foreign pathogens
- **Window period**-3-6 weeks where HIV are still being produced and not yet detectable. This early period of infection refers to the time of greatest infectivity but transmission can occur during all stages of the infection

But where to go for?????????

ICTC----Integrated Counselling and Testing Center. It is free in government hospitals, District hospitals and medical colleges.

Prevention

- Avoid multiple partners -use condoms
- Use sterile needles each time for injection
- Never share needles
- **Avoid unnecessary blood transfusion**
- **All pregnant women should be tested for HIV**
- Use standard work precautions -hand hygiene, personal protective wear
- Proper disposal of biomedical waste
- Education

Treatment

Anti-retroviral treatment keeps the amount of HIV body at a low level.

- It stops any weakening of the immune system and allows it to reduce from any damage that HIV might cause already
- The drugs are often referred to as anti-retroviral, ARVs, anti-HIV or anti-AIDS drugs.
- ART does not cure HIV infection
- It gives the individual capacity to fight HIV infection
- When an HIV-positive person is on an effective ART regimen, the risk of transmitting the virus to their uninfected sexual partners can be reduced by 96%.

CONCLUSION

HIV continues to be a major global public health issue having claimed more than 39 million lives so far and 1.5 million people died from HIV-related causes globally. HIV infection is usually diagnosed through blood tests detecting the presence or absence of HIV antibodies.

Poshan Pakhwada 2021

Awareness class at Vaniyamkulam Primary Health Centre organized by NSS volunteers of Medallions

Ministry of Women and Child Development had celebrated Poshan Pakhwada from 16th to 31st March, 2021. Focusing on nutrition in a big way, the central government had launched the Poshan Pakhwada across the country to mark the first anniversary of the POSHAN Abhiyan Addressing nutritional challenges through Food Forestry and organizing Poshan. Panchayats are the key focus areas for Poshan Pakhwada 2021. To address nutritional challenges, distribution of four saplings of nutrition rich plants per Anganwadi Centre (AWC) in the Aspirational Districts was done under the supervision of local panchayat and DM/DC by National Medicinal Plants Board (NMPB), Ministry of AYUSH. This will cater to the nutritional challenges. The ministry is also organizing the awareness campaign on the topics including the malnutrition prevalence and its consequences, food forestry, Poshan Vatika, identification of SAM children and its management.

With regards to **POSHAN PAKHWADA** the NSS volunteers from the **MEDALLIONS OF Nehru College of Nursing** had arranged an awareness class on **MARCH 31st 2021** at Vaniyamkulam **PRIMARY HEALTH CARE CENTRE**. The programme included awareness classes & chart exhibition regarding balanced diet, malnutrition, its consequences & identification of SAM children and its management. People came for the OPD sessions & immunization at the PHC had attended the session. These kind of awareness programmes invites citizens to share good nutrition practices and contribute towards a healthier India.

The 2nd year students themselves got aware about the topic. The students improved their teaching skill using different audio visual aids.

REPORT ON WORLD TUBERCULOSIS DAY 2021

THEME: "The Clock is ticking"

TB remains one of the world's deadliest infectious killers. Each day, nearly 4000 lose their lives to TB and close to 28,000 people fall ill with this preventable and curable disease. Global efforts to combat TB have saved an estimated 63 million lives since the year 2000.

World Tuberculosis Day is commemorated annually to raise public awareness about the devastating health, social and economic consequences of tuberculosis, and to step up efforts to end the global tuberculosis epidemic.

The theme of World TB Day 2021 - 'The Clock is Ticking' –conveys the sense that the world is running out of time to act on the commitments to end TB made by global leaders. This is especially critical in the context of the COVID-19 pandemic that has put End TB progress at risk, and to ensure equitable access to prevention and care in line with WHO's drive towards achieving Universal Health Coverage.

In collaboration with Family Health Center Vaniyamkulam 3rd year BSc nursing students (**Zephyres**) of Nehru College of Nursing conducted awareness programme on Tuberculosis at Vaniyamkulam Grama Panchayath on 30/3/2021. The main aim was to create awareness among people about the control and preventable nature of tuberculosis to end TB from our community. The programme was inaugurated by Vaniyamkulam Panchayath president Mr. Gangadharan. Mr. Berlin, Health Inspector Of Family health center, Vaniyamkulam delivered the message regarding world tuberculosis day. Programme started with flash mob presented by **Zephyres** of Nehru College of Nursing and the programme was continued with Health Education which was given by using charts, flash cards regarding causative organism, symptoms, mode of transmission, diagnosis, prevention, complications, Treatment, diet, myths about TB...Vote of thanks was delivered by Mss. Aparna .A.S, 3rd year BSc nursing student of Nehru College of Nursing.....

AWARNESS CLASS – COVID 19 AT PHC VANIYAMKULAM

Over 2.7 million new COVID-19 cases were reported last week. An increase of two percent compared to the previous week. With active support of the people of India, we have been able to contain the spread of the Virus in our country. The most important factor in preventing the spread of the Virus locally is to empower the citizens with the right information and taking precautions as per the advisories being issued by Ministry of Health & Family Welfare.

The 7th batch students of NEHRU COLLEGE OF NURSING had conducted an awareness class on covid 19 pandemic, vaccination, benefits & it's outcome at VANIYAMKULAM PRIMARY HEALTH CENTER ON 15th March 2021. The people came for the OP sessions & for corona vaccination had attended the class. The kinds of attempts are highly appreciable from the student's side.

The audience were from Vaniyamkulam Gramapanchayath and they became aware of covid 19 second wave. Students done their professional benchmark during covid 19 second wave through health education.

WORLD KIDNEY DAY- 2021

Recently, data from the International Society of Nephrology's Kidney Disease Data Center reported prevalence of CKD in different Indian regions ranges from <1% to 13%. World Kidney Day is a global campaign aimed at raising awareness of the importance of our kidneys. It is celebrated every year on the second Thursday of March. The world kidney day steering committee has declared 2021 the year of "Living well with kidney disease". This has been done in order to both increase education and awareness about effective symptom management and patient empowerment, with the ultimate goal of encouraging life participation. Whilst effective measures to prevent kidney disease and its progression are important, patient with kidney disease – including those who depends on dialysis and transplantation – and their care-partners should also feel supported, especially during pandemics and other challenging periods, by the concerned efforts of health care communities. With regards to world kidney day SOUL SPARKERS of NCN conducted a health awareness programme for care-partners of Dialysis patients at our parent hospital PKDIMS on 20th March 2021. The programme was aimed to provide all necessary education to help CKD patients to improve their health and slow progression of the condition, and also teach them how to effectively participate in their care.

CHINAKKATHOOR POORAM FIRST AID CLINIC

Sree Chinakkathoor Bhagavathy Temple hosts one of the most unique and colourful poorams (temple festivals) in Kerala. Situated in Palappuram near Ottapalam Taluk in Palakkad district, this festival draws in people in large numbers annually. In the year 2021 it was celebrated on February 27th. Our 6th batch students had got an opportunity to be a part of A first aid & emergency clinic on this festival organized by our parent institution P K DAS INSTITUTE OF MEDICAL SCIENCE which is always a socially responsible institution . With the expert health workers from PKDIMS our students were able to work skillfully in this clinic which develops their emergency handling skill. The public greatly benefited during the festival.

HEALTH CAMP-PALLIPURAM

P K DAS Institute of Medical Sciences is always a socially committed institution & always keen to ensure that all sections of the population receive access to primary health care. P K DAS Institute of Medical Sciences has focused on organizing medical camps in most areas of ottappalam taluk. The students of Nehru College of Nursing were also able to participate in the health camp held on February 28th 2021 at PALLIPPURAM , CHEMBARA . These kind of opportunities are really encouraging our students to be more responsible to the society.

Around 150 members attended the camp and benefited the free consultation. The students developed their assessment and communication skill for their nursing profession.

GERIATRIC CARE & SERVICES

At the biological level, ageing results from the impact of the accumulation of a wide variety of molecular and cellular damage over time. This leads to a gradual decrease in physical and mental capacity, a growing risk of disease, and ultimately, death. But these changes are neither linear nor consistent, and they are only loosely associated with a person's age in years. Older age is also characterized by the emergence of several complex health states that tend to occur only later in life and that do not fall into discrete disease categories. These are commonly called **geriatric syndromes**. Common conditions in older age include hearing loss, cataracts and refractive errors, back and neck pain and osteoarthritis, chronic obstructive pulmonary disease, diabetes, depression, and dementia. Furthermore, as people age, they are more likely to experience several conditions at the same time.

As a part of community out reach activities 4th year BSc Nursing students had a visit to Saranalayam for a geriatric care & service . This was a one day programme which was aiming for general health assessment, nutritional programme (geriatric diet) & health education to the inmates on 12 December 2020.

Geriatric counsellor from Department of Social Justice Mrs. JENCY MATHEW has become a part of our programme

The first schedule was the general health assessment of the inmates. The common problems identified were DM, HTN, poor dental & personal hygiene, generalised body weakness, activity intolerance, oedema on extremities. The severely affected cases were referred to P K Das Institute of Medical Sciences for further evaluation.

After the general health assessment nutritional programme was conducted. This was aiming to create awareness about the nutritional requirement for the geriatric group. In this the students prepared a one day menu plan for the geriatric group which meets the normal RDA for geriatric. They have displayed, explained the menu and was served to the inmates.
