

TITLE OF THE BEST PRACTICE

Innovation Based Learning For Incubation And Entrepreneurship

OBJECTIVES OF THE PRACTICE

1. Adopting experiential learning through enriched academic curricula to solve health care problems
2. Imparting practical skills to students utilizing the well-equipped infrastructure meeting the industrial standards
3. Developing indigenous technologies and products for a self-reliant India (Aatma Nirbhar Bharat)
4. Enabling students of NCN to incubate their ideas leading to start-ups and entrepreneurship.

THE CONTEXT

Young minds who come up with innovative solutions now have the support of various incubators and government schemes which help in funding, provide mentorship and expansion opportunities at different stages. This approach of the government enables startups to entrepreneurs to get ample opportunities to collaborate with the support infrastructure to develop impactful technology solutions. The future of healthcare technology is entering into a new era as researchers, innovators, as well as lawmakers strive to improve the accessibility, effectiveness, and cost of care. Technology undoubtedly will play a key role in the future of health care sectors. Institution Innovation Council is to promote innovation through multitudinous modes leading to an innovation promotion eco-system in the campus.

THE PRACTICE

In the motive of encouraging the students to be a job creator and not job seeker the Nehru College of Nursing registered in the Kerala Startup Mission (KSUM)'s Innovation and Entrepreneurship Development Centre (IEDC). Necessity is the mother of all inventions. During the clinical postings, nursing students met various necessities of technology for quality care. The institution has an IEDC cell where students can come up with their innovative ideas in developing technology for providing quality care.

EVIDENCE OF SUCCESS

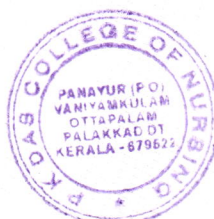

To build up more Entrepreneurs from the field of Nursing, The IIC of NCN organized an idea fest for the students on 22nd SEP 2022. The students put forward many ideas that empower the transition of healthcare delivery with the focus on point-of-care model to the more efficient and effective whole-patient approach. On 16th November 2023, NGI-TBI organized an awareness session on entrepreneurship opportunities. The program focused on the possibilities of entrepreneurship in modern era.

RESOURCES REQUIRED

Technology to transform the ideas into product. Technical assistance to produce the prototype and working model.

PROBLEMS ENCOUNTERED

Hectic semester pattern of the curriculum hinders time for implementing the innovative ideas in the real time health care applications.
